

* Use the ECS-EBPR for documenting price quotations, clarifying legal matters, confirming sales orders, reviewing transactions and specifications, documenting priority calls and more. With the ECS-EBPR you eliminate mistakes, misunderstandings, oversights, errors and inaccuracies.

* The ECS-EBPR adapts to:

- All PC computer soundcards
- Digital recorders
- Standard, micro and mini cassette recorders
- Utilizing a 3.5 mm microphone or 3.5 mm telephone record jack to give you the ability to record two-way telephone conversations

* The ECS-EBPR allows you to:

- Record cellular phone calls
- Record cordless phone calls
- Record land line phone calls

* Now you can record two-way conversations from cellular, pay-phone, hotel, home, or office telephones anywhere...anytime!

Using your ECS-EBPR to record telephone conversations:

1. Simply insert the 3.5 mm plug end of your ECS-EBPR into the 3.5 mm jack of your microphone or telephone record jack on the device you are recording to.
2. Place the microphone/ear piece into your ear.
3. Set your recording device to the *Record* mode.
4. Place the cell phone, cordless phone or phone receiver to your ear. The phone will be resting against your ECS-EBPR microphone/ear piece.

It's that simple!

ECS-EBPR Ear Bud Record Adapter Mic / Ear Piece:

Mic Side

Headset Side

As you listen, so does the highly sensitive ECS-EBPR, recording both ends of your conversation.
